Products:	Modular power components and power systems for converting electrical power.
Customers:	The applications in which our products are used are typically in the higher-performance, higher-power segments of the market segments we serve. Our products are sold worldwide to customers ranging from small to large global original equipment manufacturers (OEMs), their contract manufacturers (CM's) and internationally to distributors who support their supply chains. Our Advanced Products serve customers concentrated in the High Performance Computing, Aerospace and Defense, Industrial and Automotive markets. Applications range from powering advanced processors in server motherboards and artificial intelligence accelerator cards and systems, server rack power conversion, radar systems, industrial automation, instrumentation, test equipment, solid state lighting, telecommunications and networking infrastructure, and mild hybrid and pure electric vehicle (EV) automobiles. Our Brick Products serve customers in aerospace and defense electronics, industrial automation, industrial equipment, instrumentation and test equipment, and transportation (notably in rail and heavy equipment applications).

Customer support:	Vicor serves its customers through several sales channels: a direct sales force; independent, authorized distributors in Asia; and four globally franchised authorized stocking distributors. Field Applications Engineers, who are located in all of our global offices, provide direct technical sales support for Vicor power modules, reviewing power system applications and specifications plus technical matters with our channel partners in support of existing and potential customers. Vicor's Customer Service staff works to ensure that each customer and sales channel partner receives a rapid and professional response for each business transaction.
Manufacturing:	Power components are manufactured using highly automated processes in Vicor's ISO 9001:2015 and IATF 16949:2016 registered facilities in Andover, MA
Number of shifts:	Brick Products: 2 shifts/5 days per week Advanced Products: 3 shifts/5 days per week
Quality system	Quality system certification: ISO 9001: 2015 Certificate registration number: 951 00 0665 Date issued: December 22, 2025 Expiration date: December 21, 2028 Registrar: TUV SUD America Incorporated Quality system certification: IATF 16949: 2016 Certificate registration number: 12 111 70085 TMS Date issued: November 24, 2025 Expiration date: November 23, 2028 Registrar: TUV SUD Management Service

Calibration:	Computerized calibration system for Inspection, Measuring and Test Equipment, in accordance with ISO 9001: 2015 & IATF 16949:2016, which includes National Institute of Standard and Technology (NIST) traceable documented calibration control standards. All calibrated instruments have labels attached indicating gage ID number, date of last calibration, calibration technician identification and next calibration due date.
